welding material

soldering guns

fig.	GEV No.	description
1	800255	soldering gun 100W t.max. 510°C complete auxiliary equipment

fig.	GEV No.	description
2	800254	soldering gun electric 100W t.max. 510°C
2	800253	soldering gun electric 60W t.max. 470°C

fig.	GEV No.	description
2	800258	Soldering torch - Rothenberger MICROPEN-SET 1300 Fast catalytic soldering tool with numerous uses - Very easy to handle - Refillable - Incl. flame nozzle, catalytic head, needle tip for precision soldering, chisel tip and bevel tip for normal electrical work, knife for cutting Styrofoam - Operating temperature: 1300°C

gas soldering

fig.	GEV No.	description
1	800078	Brazing torch - Rothenberger POWER MAPP Faster and more economical than a conventional soldering iron - Immediate push-button ignition - Precise flame adjustment - Constant gas pressure - Optimal operation even at low temperatures (approx. -20 °C) - Works in any position - Easy conversion to other fuels (multigas, maxigas, minigas) - Piezoelectric ignition

welding devices

fig.	GEV No.	description
1	800247	Autogenous welding and brazing tool - Rothenberger ROXY 400L Versatile autogenous welding and brazing tool for demanding DIYers and professionals alike. The set contains two high-power welding nozzles and three micro-nozzles for professional precision engineering and modelmaking work. The tool is TÜV-certified and has all the prescribed safety features. Gas and oxygen check valves are integrated. - Working range: 0.1 - 1.5mm - 2 high-power nozzle and 3 micro-nozzles - TÜV-certified

welding material

2

fig.	GEV No.	description				
2	800079	Autogenous welding and brazing tool - Rothenberger ROXY KIT PLUS Versatile autogenous welding and brazing tool for demanding DIYers and professionals alike. The set contains a high-power welding nozzles and three micro-nozzles for professional precision engineering and modelmaking work. The tool is TÜV-certified and has all the prescribed safety features. Gas and oxygen check valves are integrated. - Working range: 0.1 - 1.5mm - 1 high-power nozzle and 3 micro-nozzles - TÜV-certified				

brazing and soldering materials

1

fig.	GEV No.	type	material	size (mm)	Qty	t.max. (°C)
1	800252	-	soldering tin	1.5	100g	183

2

fig.	GEV No.	type	material	size (mm)	Qty	t.max. (°C)
2	800251	RoloT 602	brass	ø2.5x333		890
2	800249	RoloT 607	copper	ø2x333		710
2	800250	RoloT 608	lead	ø5x333		236

gas
